Payastab™ CZT 10P

Product Description:

Payastab™ CZT 10P is a non-toxic paste Ca/Zn & Tin stabilizer. It imparts excellent initial color, good transparency and long-term heat stability. The addition of 2-4 phr **Payaflex™ 65**, due to its synergistic effect, prevents zinc burn and leads to higher heat stability.

Applications:

Payastab™ CZT 10P is used in all type of processing especially extrusion and injection molding of plasticized PVC especially for non-toxic applications. It may also be used in plastisol processing.

Typical Properties:

Assay	Units	TYPICAL VALUES	METHODS
Appearance	==	paste	Visual
Colour	==	creamy white	Visual
Density @ 25°C	g/cm ³	0.99	ASTM D5355

Recommended dosage:

Depends on the formulation, processing conditions and the type of product; usually in the range of 1- 2 phr.

Information for safe handling:

Open and handle receptacle with care.

Storage:

Cap should be kept closed. Store in a cool and dry location.

Standard Packaging:

200 Kg barrel, conform to the UN regulation
